INTERAKTION User Group

This is a non profit making independent user group which holds a library of 'Public Domain' software. The software is for CP/M machines in general and is available in only in Interak 3.5" disk format.

They charge a couple of pounds for copying the disks.

They are willing to copy public domain software which is on the IBM 3740 8" format onto 3.5" disks.

There is a membership charge of 7 pounds per annum, although the "per annum" is treated flexibly depending on how many newsletters have been published in the year.

The address of the user group membership secretary for membership application forms (if one is not included with this sheet) is:-

TOM EVANS  
PEN-YR-ALLT  
CWMBACH  
WHITLAND  
DYFED SA34 0DR

Telephone:- 09946 709 Business (Modem out of hours)  
09946 710 Private (Voice)

Tom also operates a bulletin board called TAECON, with programs, information, news on Interak computers (and others). We think it can support 300 baud and 1200/75 baud, but log on for full details.

An occasional (intended to be regular) newsletter is sent to members, and members can use the Interaktion disk library mentioned above.

The address of the disk librarian is:-

CHARLIE BRIDGSTOCK  
32 WIMBORNE AVE  
THINGWALL  
WIRRAL  
MERSEYSIDE L61 7UL

Telephone:- 051-648 3000
